Requesting/Modifying/Removing Login Credentials

All User Account management activities can be managed by completing an [SWMBH's Online User Form](#) and following just a few easy steps.

1. Complete Questions 1 & 2 on the page, identifying yourself and what type of account activity you would like to complete.
2. Complete the General Disclaimer.
3. Enter user related information on the following two pages.
4. Complete question 10, if applicable.

User Account FAQs

- How long does it take to receive credentials after completing a request?
 - Requests are typically handled within 72 hours, but can be expedited per request to providersupport@swmbh.org
- Are agency accounts allowed?
 - No, everyone who logs into SWMBH SmartCare must do so via the account provided to them individually.
 - Account sharing may result in permanent deactivation from the application, among other things.

Logging-in, Navigation and Terminology

Logging-in

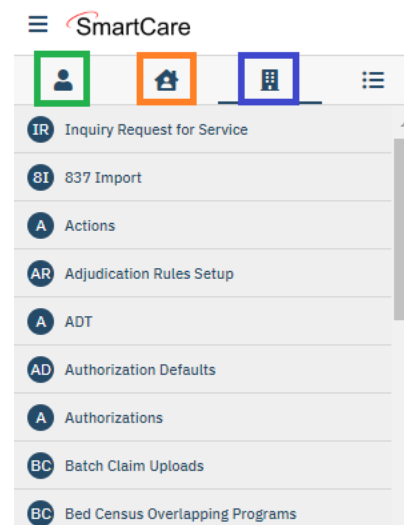

Users shall refer to their Welcome Email, which contains the URL, username and temporary password for users logging-in for the first time. Please note that SWMBH employs industry standard security measures to protect client privacy and confidentiality.

- Users will be asked to confirm their identity via two factor authentication in the form of a verification code upon each login.
- Users will also occasionally be asked to answer security questions as an additional form of authentication.
- All account passwords expire every 90 days and must be reset at that time.
- All users will be deactivated after 35+ days of inactivity.

Navigation Terminology

Below you'll find a summary of the most common terminology used to navigate within the SWMBH SmartCare application.

- **URL**, a website's address
- **Banner**, this list of quick pages to access (highlighted, pictured right)
 - Other: Quick access to agency-level screens/pages
 - Provider: Quick access to provider screens/pages
 - Client: Quick access to client level screens/pages
- **Toolbar**, a list of actions on each screen (pictured below) typically located on the Top Right corner of the screen.

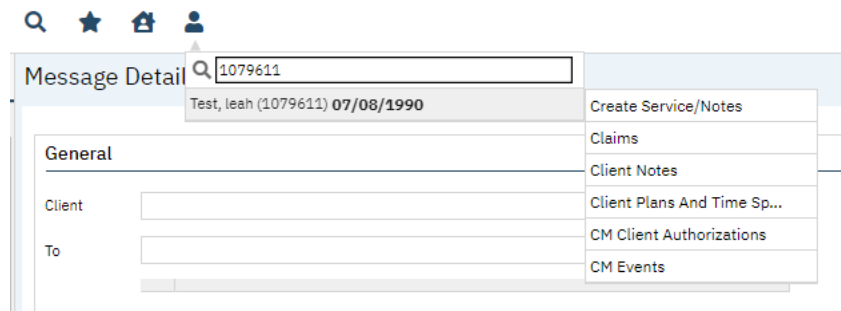

Each screen contains a unique list of 'tools' in their respective toolbar which execute specific functions or direct users to other screens. Users can hover over uncertain icons within the toolbar for guidance on their function (New, Save, Delete, Download, etc.)

- **List Page**, a screen showing a list of events, claims, etc.
- **Event**, a record entered into the client account.
- **Quick Search**, an easy place to search for reports/screens, Favorites, Providers and Clients (pictured below).

Users will be able to quickly navigate within and among Client, Provider, Favorite records by clicking on one of the icons seen below and searching (Client Search illustrated below).

- **SWMBH ClientIDs**, are unique client identifiers for SWMBH Clients. They can be found next to the client's name in the search field (e.g.-'1079611' above) and come in two varieties.

- SWMBH MasterID: the ‘Master Record’ of a client account which holds all client data.
 - Only records associated with the Provider the user is associated with may be visible from this record.
- SWMBH Provider ClientID: is a SUD specific record for the client, only accessible once a valid release is on file. This record contains only SUD records for the client in question.

Accessing and Navigating Client Records

Accessing Client Records

SWMBH Client Records can be accessed via the Client Search function found in the **Quick Search** field.

Users who have a Client Name or ClientID may use the quick search function to navigate directly to the client record as displayed below:

Users who do not have the relevant client information at hand may also expand their search by selecting the <Client Search> function within the Quick Search field and completing a more detailed search via the Client Search Popup, seen below:

 A screenshot of a 'Client Search' popup window. The window has a dark blue header with the title 'Client Search' and a close button. Below the header, there is a 'Clear' button and a 'Provider' dropdown menu set to 'All Providers'. The main search area is divided into sections:

- Name Search:** Includes checkboxes for 'Include Client Contacts' and 'Only Include Active Clients (Checking will not allow option to create new Client)'. It has buttons for 'Broad Search' and 'Narrow Search', and a 'Type of Client' section with radio buttons for 'Individual' (selected) and 'Organization'. Below this are input fields for 'Last Name', 'First Name', and a 'Program' dropdown.
- Other Search Strategies:** A grid of search buttons and input fields:
 - SSN Search: Three input fields.
 - DOB Search: One input field with a calendar icon.
 - Primary Clinician Search: One dropdown menu.
 - Authorization ID / #: One input field.
 - Phone # Search: One input field.
 - Master Client ID Search: One input field.
 - Client ID Search: One input field.
 - Insured ID Search: One input field.
- Records Found:** A table with the following columns: ID, Master ID, Client Name, Chosen Name, SSN/EIN, DOB, Status, City, Primary Clinician, and a partially visible 'Pr' column.

Creating Provider Client (SUD) Records

For users tasked with creating their Provider Client (SUD) records, follow these three easy steps from the Client Search form;

1. Enter the Client Name into the relevant fields and select Broad Search
2. Enter the client's SSN into the SSN field and select search
3. Enter the client's DOB into the DOB field and select search

If an existing client provider record is not found, the Create Provider Client will activate, allowing you to select the Provider agency and create a new Provider Client record.

Please contact providersupport@swmbh.org in the event the Create Provider Client button does not activate after following the steps outlined above.

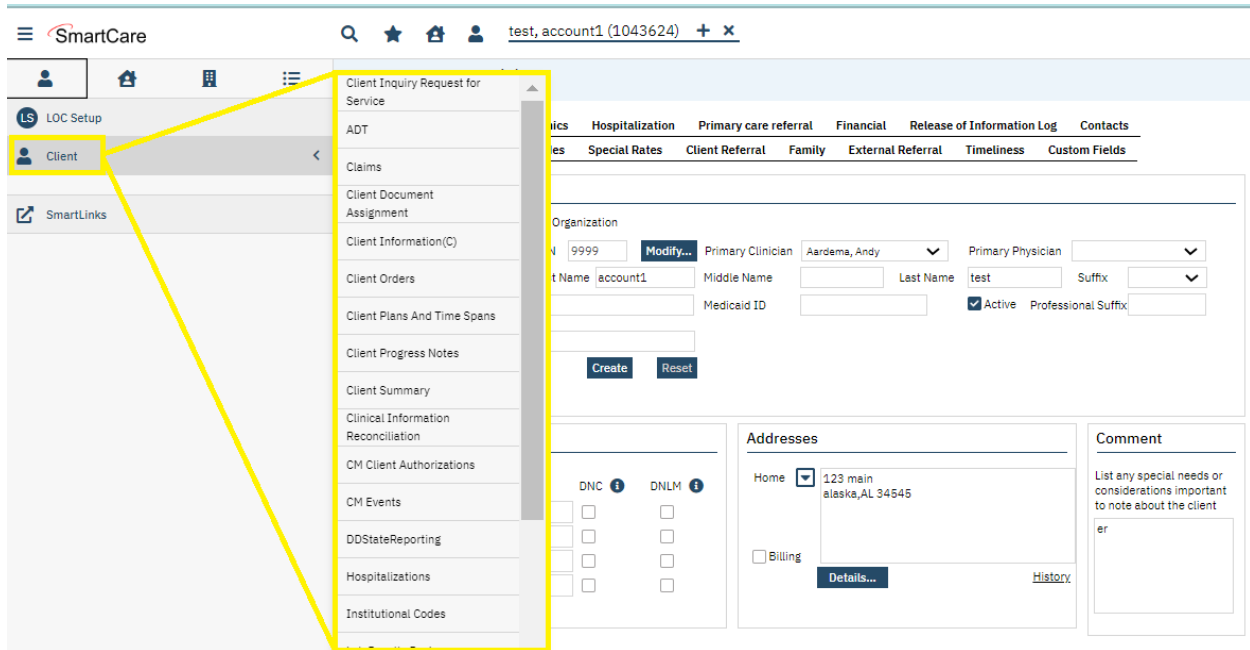

Client Information Screen

Once users have found their client, they may continue their navigation to the record and are defaulted to the Client Information screen (pictured below) upon arrival within the client record. A variety of basic client information can be found here, including SWMBH ClientID, MedicaidID, Addresses and Contact Information among other things.

The screenshot shows the SmartCare interface for a client record. The top navigation bar includes the SmartCare logo, search, star, home, and user icons, along with the client ID 'test, account1 (1043624)'. The left sidebar contains 'LOC Setup', 'Client', and 'SmartLinks'. The main content area is titled 'Client Information(C)' and features several tabs: General, Aliases, Demographics, Hospitalization, Primary care referral, Financial, Release of Information Log, and Contacts. Below these are sub-tabs: SA Demographics, Client Episodes, Special Rates, Client Referral, Family, External Referral, Timeliness, and Custom Fields. The 'General Information' section is active, showing fields for Client ID (1043624), SSN (9999), Primary Clinician (Aardema, Andy), and Primary Physician. It also includes fields for Prefix, First Name (account1), Middle Name, Last Name (test), Suffix, E-Mail, Medicaid ID, Medicare Beneficiary ID, and Patient Portal ID. The 'Phone Numbers' section has fields for Home, Mobile, Other, and Business, each with a dropdown menu and checkboxes for DNC and DNLM. The 'Addresses' section includes a dropdown for Home address (123 main alaska, AL 34545) and a checkbox for Billing. A 'Comment' section is also present with a text area for notes.

Client Banners

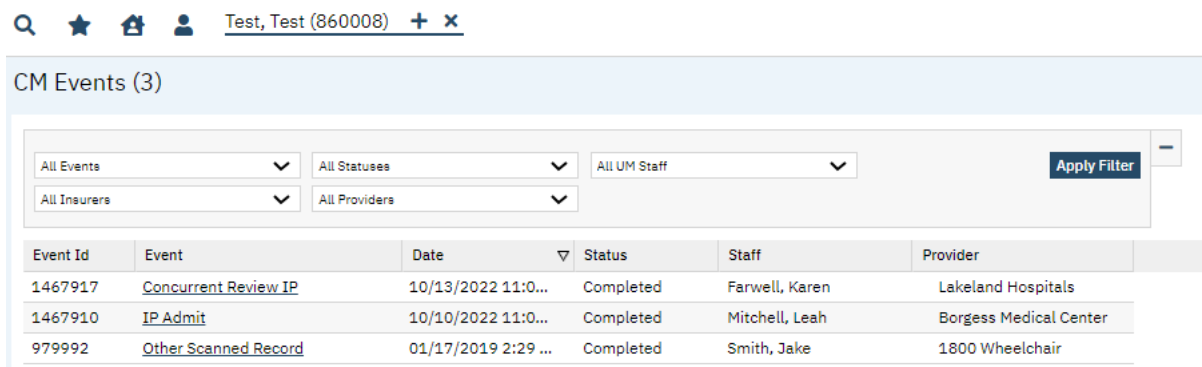

Users may access additional components of the client record such as Events, Claims, Authorizations, etc. via the Client Banner found on the left side of Client Screens:

Note that certain screens such as CM Events are only available from within a client record. The most common screens are detailed in the following subsections.

CM Events

The CM Events list page includes all events associated with the specific client record that the user has permission to view.

Users may click the event hyperlink to access the record in question or can adjust filters for a more specific view of client events. The CM Events Toolbar also allows users to export the CM Events list page or even create new events.

CM Authorizations

A Client's Authorization history can be found by navigating to the CM Authorization banner of the Client Record. This listpage will display the full history of the client's authorizations.

Auth Id	Provider Name	Insurer	Site Name	Billing Code	Auth #	Status	Units	Used	From	To
<input type="checkbox"/> 785656	zTesting	SWMBH...		H0010	2021102...	Approved	1		10/22/2021	11/22/2021
<input type="checkbox"/> 785657	zTesting	SWMBH...		T1007	2021102...	Approved	1		10/22/2021	12/22/2021
<input type="checkbox"/> 787263	zTesting	SWMBH...		90853	UM-2021...	Approved	49	0	10/29/2021	09/30/2022
<input type="checkbox"/> 787264	zTesting	SWMBH...		H0038	UM-2021...	Approved	149	0	10/29/2021	09/30/2022
<input type="checkbox"/> 787265	zTesting	SWMBH...		H0020	UM-2021...	Denial-r...	10		12/01/2021	12/31/2021

Users can easily view Client Level Authorizations from this list page, as well as modify filters for a more precise view. Users may also export their list of authorizations via the export feature in the toolbar.

Additional guidance regarding the authorization process can be found on Pg. 25

Client Claims

A client's full claim history can be found within the Claims banner of the Client Record.

Claim Lin#	Client Name	Provider	DOS	Status	Payable Amount	Paid Amount	Procedure	Insurer	Authorization(s)
3562222	test, test	Community He...	09/01/2...	Denied	\$0.00	\$0.00	H0001	SWMBH SUD	
3562223	test, test	Community He...	08/01/2...	Denied	\$0.00	\$0.00	H0001	SWMBH SUD	

Users can easily view Client Level Claims from this list page, including claim status. Users may also modify filters for a more precise view as well as export their list of claims via the export feature in the toolbar. Additionally, the claims toolbar includes the option of creating new Professional (P), Provider Professional (PP), Institutional (I) and Provider Institutional (PI) claims for the client via the icons below:

Additional guidance regarding the claims process can be found on Pg. 17

Client Plans & Timespans

Users can easily view and modify a client's plans & timespans from the Client Plans And Timespans screen. Below are some tips helpful to interpreting the screen:

- View a list comprehensive list of existing Plan and InsurerID information for a client.
- Modify the Start and End Dates of specific coverage plans.
- Easily view the current eligibility for a client.
- View a chronological order of client plans.

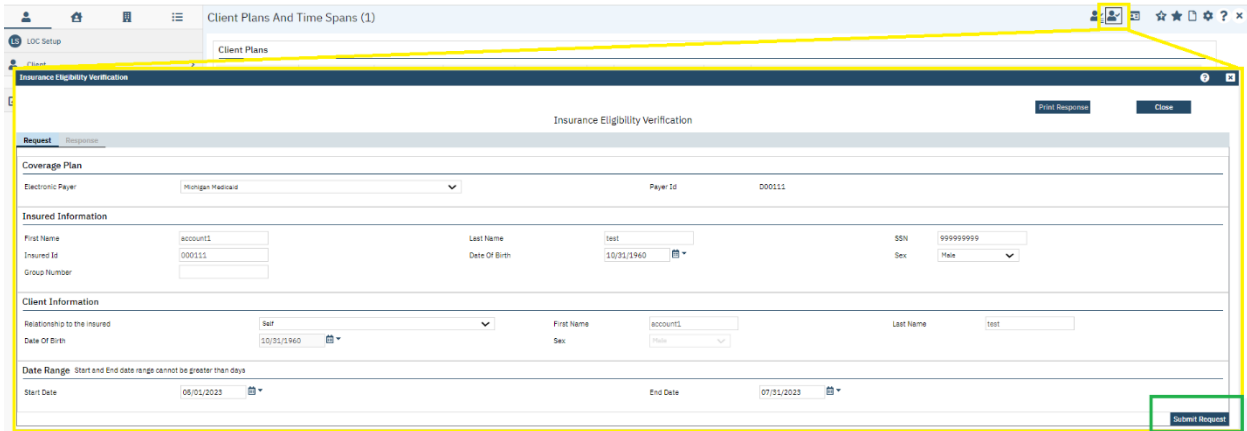

Plan Name	Insured Id	Co-Pay	Start Date	End Date	COB	Service Area	
Medicaid MH	000111					MH	Add

Show Current Plans Only Maximize Time Spans

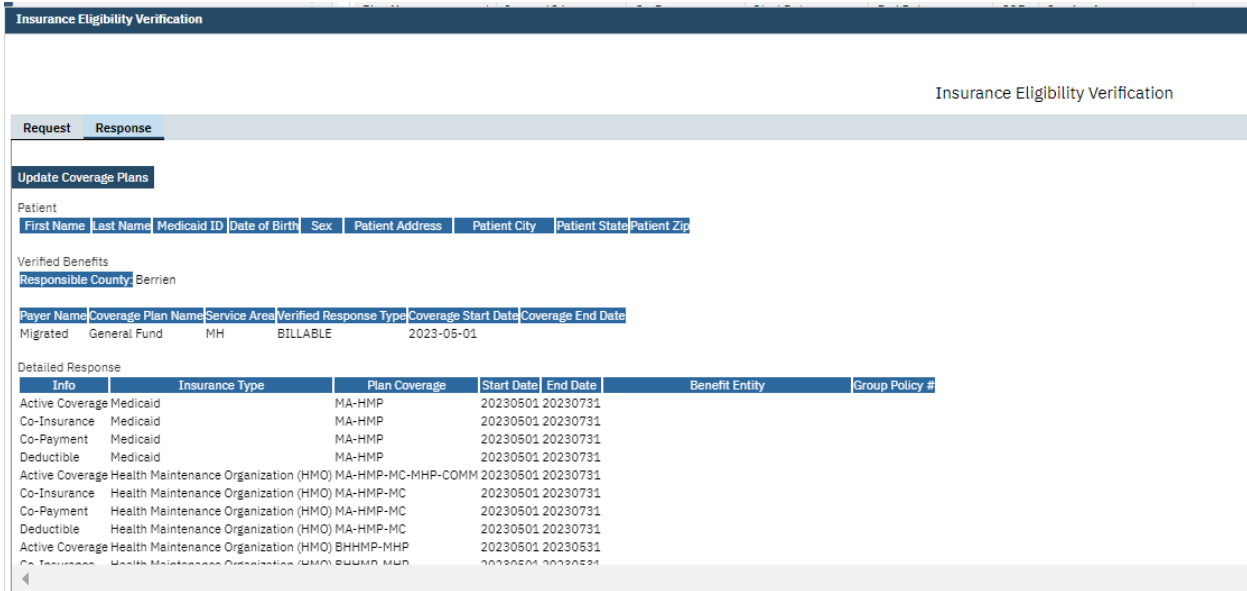

Plan Time Spans

Verify Client Eligibility

Users may also run an instant eligibility check with the Michigan Department of Health & Human Services (MDHHS) via the Verify Eligibility tool in the Client Plans & Timespans toolbar:

Running the eligibility lookup tool (also known as a 270-71) will produce an output of the client's eligibility for the period queried:

Notes on Plans, Timespans and Eligibility

SWMBH automatically loads the most current Plans & Timespans available from MDHHS via a nightly 834 eligibility file load. For the purpose of claims payment, the default eligibility data provided via 834 Eligibility Record from MDHHS is considered the 'source of truth'. In the event a client's eligibility record does not match what is found via the Verify Eligibility tool, users are permitted to update the client Plans & Timespans.

Accessing and Navigating Provider Records

Provider Records provide a valuable repository for all provider related records, such as contracts, credentialing and miscellaneous documentation.

Finding A Provider

Provider agencies can easily be found via the Provider Search tool:

Users may also access Provider Records via Provider Search banner (if part of your application role) or via numerous hyperlinks found throughout the application.

Provider Files

Once users have identified and navigate to their provider, they will arrive at the Provider Summary Screen. Provider Summary screen provides an informal summary of information regarding the provider agency, including the agency's **SWMBH Assigned ProviderID**, which is found in parenthesis next to the provider's name in the search field (e.g.-2412 below). Information on this, and other Provider screens, is managed by SWMBH staff and is not editable by most users.

A screenshot of the "Provider Summary" screen. The browser's address bar shows "zTesting (2412)". The page title is "Provider Summary". The main content area is a table with the following information:

Summary			
Provider Name: zTesting	Provider Status: Active	Network Provider: Yes	Provider Type: Facility
Contract Expiration Date: 06/01/2020	Insurer: Barry County CMH Authority, Berrien Mental Health Authority, Pines Mental Health Authority, Summit Pointe, SWMBH MH, SWMBH SUD, Venture SA (DO NOT USE)		
Primary Site: TEST SITE A	Site Type: Clinic	Site Status: Active	Address: 124 Main St., Battle Creek, MI, 94014
Paid YTD:	Payable:	Payable Past 30 Days:	Contact:
Pended:	Pended > than 60 days:	Credit/Receivable:	Phone:
Last Check:	Affiliated with: Yoder, Ariana, Yuan, MD, Michael, Zalner, Kai		
Other Active Sites: Test	Note: For testing BCCMHA and Pines Insurers on Auth Events		

Like the organization of Client Records, Provider Records are organized and accessible via the Provider Banner and include the following modules:

Provider Contracts

The Provider Contracts summary screen provides a record of all provider agency contracts.

Contract ID	Insurer	Type	Contract Name	Start Date	Expiration Date
7023	SWMBH SUD	Signed Contract	zTesting (- SWMBH SUD - 202...	10/01/2022	10/31/2023
6464	SWMBH SUD	Signed Contract	zTesting - SWMBH SUD - 202110	10/01/2021	09/30/2022
5283	Van Buren County CMH	Signed Contract	zTesting - Van Buren - 201907	07/01/2019	07/30/2019
4411	Barry County CMH Authority		zTesting - Barry Coun - 201709...	09/18/2017	09/18/2017
4410	Barry County CMH Authority		zTesting - Barry Coppppp	09/18/2017	09/18/2017
4095	Van Buren County CMH		zTesting - Van Buren - 201610	10/18/2016	10/18/2016
4063	SWMBH MH	Signed Contract	zTesting - SWMBH MH - 201610	10/01/2016	09/30/2017
4000	SWMBH MH		zTesting - SWMBH MH - 201609	09/23/2016	09/23/2017
3886	Barry County CMH Authority		zTesting - Pines Ment - 201606	01/01/2000	06/01/2020

Selecting the relevant contract's ContractID will send users to the Contract Details Screen, where additional information regarding the specific contract in question, including Rates and Rules, can be reviewed:

CM Credentialing

The CM Credentialing banner offers easy access to an agency's entire credentialing record, including licensure, liability and accreditation among others:

Credentialing ID	Site	Credentialing Type	Effective From	Expiration Date
3166		Organizational	08/01/2023	08/01/2025

Please note that the modification of credentialing records is limited to SWMBH Provider Network staff and is view only for external users.

Claims

A list page of all claims associated with the Provider and Insurer associated with the user's account permissions are available via the My Office: Claims banner. As with all list pages, filters can be modified for a more nuanced search of claim lines, and users may also export the list page via the export function in the toolbar.

Third-Party EOBs

In the event that a Third-Party EOB is required as part of a claim, users can access the EOB fields via the **Third Party EOB Information** hyperlink on the Claim Form.

Claim Entry Payment and Adjustment

Claim Entry Payment and Adjustment

	Payer	Payer Name	Allowed Amount	Previous Payment	Previous Adjustment	Group Code	Reason
X	▼					▼	▼
X	▼					▼	▼

Charge Amount Total Allowed Total Paid Total Adjusted Claimed Amount

- **Payer:** The primary EOB payer (Commercial Insurance, Self, etc.).
- **Payer Name:** The primary EOB payer name (Blue Cross, Client Name, etc.).
- **Allowed Amount:** EOB Allowed Amount.
- **Previous Payment:** Primary payer previous payment.
- **Previous Adjustment:** Previous Adjustment, if applicable.
- **Group Code:** See dropdown.
- **Reason:** See dropdown.

EOB Calculus: in the event a user is billing for a service, with a previous payment from the primary payer, the SWMBH SmartCare adjudication logic will approve the difference between the previously paid amount and the Contract Rate for the code between the secondary insurer and the provider. For Example;

SWMBH-Provider contract rate = \$85/unit.

Billed Amount = \$100

Previous Payment= \$75

Approved for Payment= \$10

Estimate Line Billing

Billing the same code which requires a unique claim line over a continuous period? Estimate Line Billing allows you to enter in several claim lines at once. Just enter timeframe, code and total charge information in the Service Line window and select the Estimate Line Billing button on the claim form to review the claim line breakdown.

	Date Of Service	Units	Charges

From 08/01/2021 To 08/08/2021
Total Charge 800 Total Units 8
Allocated Charges 800 Allocated Units 8
Reset Reallocate

Pressing Update/Close after entering in claim line information and selecting Reallocate will create a unique Claim Line for each date of service on your Claim Form.

Reverting and Correcting Claims

SWMBH providers are required to monitor claims within the SWMBH SmartCare application and as such, shall occasionally require reverting claims to modify for additional rounds adjudication. Users can revert claims via the following methods.

- Individual claim lines can be reverted via the Revert option in the claims detail toolbar.
- Multiple claim lines can be reverted simultaneously via the claims list page, provided the claim status filter is set to 'Denied', 'Paid' or 'Approved' status.
 - Note that once a claim is marked 'Final Status', intervention from SWMBH staff is necessary to revert once again.
- Once reverted to Entry Complete status, users can modify the claim lines for additional adjudication.
 - **Users should use caution and avoid unnecessary reverting claim lines.**
 - Reverting claims from 'Paid' status can cause reimbursement issues. Its recommended to reach out to a SWMBH resource prior to reverting paid claims in order to coordinate.

Checks

SWMBH SmartCare users can view Checks and Remittance Advice copies via the Checks portion of the My Office Banner.

Notable Functions

Secure Messaging

SWMBH SmartCare users may send secured messages between application users via the Messages portion of the My Office banner.

Messages received by the users can be found in the user's inbox and will display in the Details tab of the screen once the radio button in the second column of the message's row is selected. Users are also able to view messages they've sent via the **Sent Messages** radio button.

Scanning/Uploading Records

SWMBH SmartCare users can view and upload relevant client records directly into the client file (CM Events) via the My Office: Scanning banner. Users can view a list of all previously scanned records which they have uploaded via the Scanning list page;

To upload a new record to a client or provider account, simply select the Upload New Images icon from the toolbar.

Users will select the relevant record category (Client Events or Provider), client (select **...**), Effective Date, Provider, Insurer and can even add a free text Description to the record. Upon uploading the record will appear on the Scanned Medical Records list page as well as relevant client (CM Events) or provider (Provider Documents) list pages.

Requesting Authorizations

Users attempting to request authorizations may do so by creating a new Authorization Request Event from a client's CM Events banner.

Insurer
 Insurer Provider
Insurer and Provider Applies to all authorizations listed below

Authorizations
 Start Date End Date Site
 Code Req Units How Often?
 Modifiers Total Units Urgent

Requestor's Rationale

Women's Speciality
 Women's Speciality Program Yes No
 (If yes to any of the following questions – Mark Yes for Women's Speciality Program: Is client a pregnant woman? Does the client have dependent children? Is the client trying to regain custody of his/her child(ren)?)

After completing the Insurer, Provider, Start-End date fields the code dropdown will automatically populate with a list of available codes. No codes appearing after this point is typically a symptom of no contract being place for the DOS in question. Please contact your contract representative from SWMBH Provider Network in such an event.

After entering in the relevant information above, including code, users may move forward with the remaining elements of the request. Selecting the Add Code feature will allow users to request multiple services from the same request.

Upon completion of an Authorization Request event the request will be assigned an Authorization # and be places as Requested status and can be viewed on both the My Office: CM Authorizations and Client: CM Authorizations list pages.

Authorization Request with Level of Care (LOC)

SWMBH offers a unique streamlined authorization process for qualified providers. The Authorization Request with LOC event provides users with an instant determination on their request, provided the client has an ASAM Assessment available within the past 30 days of the request and a valid Release of Information available in the past 365 days in addition to standard authorization request requirements such as TEDS and relevant clinical rationale.

Users will be familiar with many of the fields on the Authorization Request with LOC event considering they are also included on the Authorization Request Event, however there are a few fields of note:

- Applicable LOC information from the past 30 days is automatically displayed here.
- Selecting Recalculate LOC will refresh the applicable LOC in the event a more recent Assessment is created.
- Upon entering in all authorization request information, inserting and saving, the determination will appear here. If all criteria are met, the determination will automatically approve.

Please note that the Authorization Request with LOC event is only available to pre-approved providers. Please contact your contract representative from SWMBH Provider Network for more information.

ASAM Assessments

The SWMBH SmartCare application interfaces directly with FEI Systems to allow users logged-into SmartCare to easily complete ASAM Continuum Assessment without logging-in directly to FEI.

The ASAM Continuum Assessment Event can be accessed via the CM Events banner within a client record.

- Selecting Assessment will initiate a popup which directs users to the FEI Portal where the ASAM Assessment can be carried out.
- After completion of the ASAM Assessment, users return to SWMBH SmartCare and select Import to import the assessment scores.
- Assessment Scores and additional details will be initialized from the FEI system here.

BH TEDS

The SWMBH SmartCare application allows users to complete BH TEDS Admissions, Updates and Discharge events directly within the environment. [TEDS Records change annually as prescribed by the Michigan Department of Health & Human Services \(MDHHS\)](#) and are required for nearly all SUD Authorization Requests.

BH TEDS records require specific administrative and clinical training to complete. Please contact your SWMBH SUD representative or SUD Director for additional guidance regarding BH TEDS records.

SUD Health Home (SUDHH) Care Plans

The SWMBH SmartCare application includes SUDHH Care Plan Events, known simply as Care Plans, for the purpose of managing Opioid Health Home episodes. The event offers original Care Plans, Addendums and Reviews for the purpose of maintaining an ongoing record of SUDHH care.

The screenshot shows the 'Care Plan' form in the SWMBH SmartCare application. At the top, there is a search bar and a user profile for 'test, account1 (349196)'. The form title is 'Care Plan'. Below the title, there are fields for 'Effective' (08/10/2023), 'Status' (New), and 'Author' (Smith, Jake). There are tabs for 'Event' and 'Note'. Under the 'Event' tab, there are sub-tabs for 'General', 'Needs', 'Goals/Objectives', 'Intervention', 'Diagnosis', and 'Supports/Treatment Program'. The 'General' tab is selected, showing three radio buttons: 'Care Plan' (selected), 'Addendum', and 'Review'. To the right of these buttons is a text field for 'Client name to be utilized in goal descriptions on plan' with the value 'account1'. Below this are sections for 'Strengths' and 'Barriers', each with a large text area for input.

Users may import ASAM Level of Care data, enumerate client needs as well as track goals/objectives and interventions. Please contact your SWMBH SUDHH Coordinator for additional guidance on SUDHH Care Plans.

Claims FAQ

Claims submitted to SWMBH will automatically adjudicate each night and can be immediately adjudicated at the discretion of the SWMBH Claims Team. Upon entering a claim into the SWMBH SmartCare application the status will be 'Entry Complete'. The most common claim statuses upon adjudication are below:

- **Approved/Partially Approved:** Claim has been approved.
 - After the approval process the claim will be set to 'To Be Paid' and await payment in the form of a check.
 - Currently SWMBH does not provide a means to receive EFT Payments.

- **Denied:** provides a list of all denied claims which may require further review.
 - Providers are encouraged to review Denied claims on a continuous basis.
 - Denied claims can be reverted at the will of the provider and 're-worked' for resubmission.
 - Users are strongly advised to avoid creating duplicate claims in the SWMBH SmartCare Application. Denied Claims should be modified in their existing form to achieve approval.
 - Failure to adhere to guidelines surrounding the creation of duplicate claims may lead to users being relieved of their access to the SWMBH SmartCare Application.

Common Claim Denial Reasons

For claims which are Denied or Partially Approved, users can review the Denial Reasons column of the Claim Lines list page for an explanation of the determination. Common Denial Reasons include:

- **Billing Code is an Add-on and Primary Service Billing Code is missing.**
 - Several codes, such as SUDHH and ABA benefit, require a Primary Service billing code to achieve approved status prior to any Add-ons being approved. Please contact your SWMBH Care Coordinator for additional details.

- **Billing Code requires Authorization and one does not exist.**
 - Users will encounter this denial reason in the event the claim they are attempting to bill does not have prior authorization, or the previous authorization has been exhausted. Users can review a client's Authorization via the CM Client Authorization banner of the Client record (pg.15)
 - Note that any modifier, site or other restrictions may be applied to the authorization and must be matched verbatim (in most cases) on the claim.

- **Billing Code Unit Frequency exceeds Contract Rules.**

- In addition to universal rules surrounding the frequency in which a code can be billed, some provider contracts also enforce unique contract rules.
- These rules can be viewed via the Billing Code Rules portion of the Provider banner (pg.21).
- Claim was received after period mentioned in Contract.
 - Users will encounter this denial reason when the claim is submitted after the period mentioned in the contract.
 - Users can view the contract details regarding claim timeliness on the Contracts portion of the Provider banner (pg.19)
- Member is not eligible for any Plan.
 - Users will encounter this denial reason in the event that there is no appropriate coverage plan for the client on the claim's date of service.
 - Additional details regarding client eligibility can be found on the Plans & Timespans portion of the Client banner (pg.13)
- No Rate can be found for this Claim Line.
 - Users will encounter this denial reason when the adjudication process is unable to locate an applicable contract rate for the billing variables present on the claim form.
 - The adjudication process will review the relevant contract in the pursuit of matching the DOS, Site, Billing Code, Billing Code Modifiers and Associated (Rendering) Provider found on the claim form.
 - Additional details regarding contract variables can be found on the Contracts portion of the Provider banner (pg.20)
 -
- Waiting for 3rd Party EOB.
 - If a claim requires an EOB, users will be required to revert the claim(s) in question to Entry Complete and utilize the Third-Party EOB Information to complete this information.
 - Users will also need to uncheck the Previous Payer.

837 Billing

Qualified providers can upload 837 text files directly into the application through the 837 banner or may engage with a Clearinghouse to do so. An 837 Companion Guide is available for those interested in utilizing this method of billing. Please contact providersupport@swmbh.org if you would like to know more.
